

# Kickstart your **child's learning** journey

Become more curious, creative, and confident with **India's leading integrated course** for KG - Grade 3

1

## Teach Lessons

Our curriculum covers 5 subjects essential to develop the right skills and growth mindset at a young age.

Teach lessons focus on building conceptual understanding through animated videos, games and interactive activities.

### Maths

Number drills help with development of **problem solving skills**

### English

Extensive reading, writing, and speaking help with development of **communication skills and confidence**

### Science

Exploring the world around us through experiments helps with development of **curiosity and a scientific mindset**

**Lido Exclusive!**

### Art

Art and hobby help in developing **creativity and innovation skills**

### Social-Emotional Learning

Practicing empathy, gratitude, social skills and self-care **build personality and improves people skills**

2

## Revision and Assessment Lessons

Revision Lessons are based on the concept of spaced repetition where students revise and practice core concepts at regular intervals.

3

## Project-Based Lessons

Students create engaging projects set around challenges and problems they may face in the real world.

4

## Parent-Teacher Meet

PTM lessons are periodic meetings where teachers review student progress with parents

## How we do it

### Learning by doing:

Students learn concepts by reading, experimenting, and asking a lot of questions!

### Practising skills:

Students practice concepts through interactive and engaging games and puzzles

### Creating your project:

Students implement learnings in real-life by creating fun projects and showcase their skills to the world.

### Earning badges:

Every project will test one of the 7 core skills. As you complete your projects, you earn badges and upskill.

## Some fun projects that you will build:

### Recite a poem

### Read aloud story

### Create a painting using leaves

### Create a painting using home tools

## Did you know?

The brain develops fastest when you are young. Upto **85% of the brain develops by the age of 6-8yrs**

As per UNESCO, early childhood is a time of remarkable growth with brain development at its peak

India's National Education Policy recognises that over 85% of a child's brain develops by the age of 6.

# Lido Headstart Badges – Collect and Upskill!

Each learning unit teaches grade-appropriate knowledge concepts and gives students a chance to develop 21st Century Skills through completing milestone projects and earning LIDO Headstart Badges

## 21st Century Skills

## LIDO Headstart Badge
